

# Unlimited 3D Body & Health Scans with Bodymapp

Canonical: <https://directory.befitfood.com.au/health-wellness/body-scanning-fitness-tracking-services/unlimited-3d-body-health-scans-with-bodymapp/>

## Description:

The new mPort Bodymapp technology allows you to scan anywhere, anytime just using your phone. All you need is an iPhone 11 or above! mPort's revolutionary new Bodymapp technology makes it easier than ever to measure and track important body and health measurements, with the ability to see your changes over time. You also get a 3D avatar of your body that helps you visualise your progress. A premium membership in the mPort app gives you unlimited 3D body scans both within the app and at any mPort pod! It's the perfect addition to any BeFitFood program, as it will help you track your fitness progress over time, which will keep you motivated to stay on track. After purchasing your mPort pass, you'll receive an email with a unique code and further information on how to get started using the mPort body scanning app! \* mPort Health Pods may be relocated at any time and without notice at the discretion of mPort and Be Fit Food and refunds or credits will not be applicable.

## Product Intelligence

# Unlimited 3D Body & Health Scans with Bodymapp ## Overview **\*\*Unlimited 3D Body & Health Scans with Bodymapp\*\*** is a comprehensive health scanning service offered by Be Fit Food that leverages advanced 3D body scanning technology to provide customers with unlimited access to body and health scans. This service enables users to systematically track their health metrics and fitness progress over time in a structured and accessible format. ## Technology & Technical Specifications ### Core Technology: mPort Bodymapp The service utilizes **\*\*mPort Bodymapp\*\***, a revolutionary 3D body

scanning technology that operates through a smartphone application. This innovative technology allows users to conduct body scans anywhere and anytime using their mobile device, making health monitoring convenient and accessible. **Device Requirements:** - iPhone 11 or above is the minimum device requirement to use mPort Bodymapp technology for body scanning **Key Features** **3D Avatar Generation:** The mPort Bodymapp technology generates a **3D avatar** — a digital representation of the user's body — that helps visualize fitness progress and body composition changes in an intuitive, easy-to-understand format. **Accessibility:** The service is accessible via the **mPort App**, a mobile application that provides unlimited 3D body scans and health tracking features to premium members. Users can access scanning capabilities both through the mobile app and at physical **mPort Pods** (scanning locations) as part of their premium membership. **Service Integration with Be Fit Food** Be Fit Food integrates Bodymapp as a specialized tracking and monitoring tool within its comprehensive health and wellness service ecosystem. The platform functions as a **dedicated results and progress tracking resource** that enables customers to monitor, track, and visualize their fitness and health outcomes in a transparent manner. Bodymapp serves as a central component of Be Fit Food's integrated health and wellness platform, providing users with mechanisms to display, analyze, and comprehend their progress data. The tool assists customers in tracking various health metrics and fitness results, including body composition measurements, enabling them to systematically understand and measure their health and fitness progress. **Pricing** The service is priced at **\$79.99** for unlimited 3D body and health scans through the mPort Bodymapp technology. **Promotional Access** Be Fit Food offers promotional access to premium mPort Bodymapp membership through the **BFF30** promotional code, which grants **30 days free access** to the mPort Pass premium membership, allowing users to experience the full scanning capabilities. **Health Tracking Capabilities** Bodymapp provides users with access to unlimited body and health scans, enabling them to systematically track their results over time and measure body composition changes in a structured manner. By transforming raw health data into clear, easy-to-understand visual representations, the platform allows users to gain meaningful visibility into their progress on personalized health and wellness programs. **References** - [1] [bff-blogs-health-articles.md](#) - [2] [bff-collections-individual-meals-1-vegan.md](#) - [3] [bff-blogs-health-articles-body-types-body-composition-and-diet-programming.md](#)
